10	Student feedback mechanism on Institutional Governance / faculty performance	The student/ faculty involvement in the academic affairs/ improvements is achieved through formation of two student/ faculty committees a) Class Representative/Subject Representative Committee-This committee consists of one Class Representative each from each section of the programme. They are joined by Subject Representatives who coordinate the academic activities between the faculty and the students. This committee meets every month to take up academic matters including course completion and student teacher bonding. It also ensures industry academia exchange through networking with visiting and guest faculty who are largely drawn from the industry. The core faculty members of METIOM are also members of this committee, which is presided over by the Director. b) Placement Coordination Committee – This committee consists of two students representatives from each section from the junior as well as senior students. The Placement Coordinator coordinates the committee and core faculty members also join the deliberations. Besides the above committees there is Core Faculty Committee headed by the Director, which meets every week to coordinate the academic programmes of the institute. Thus full participation of students and faculty is achieved.			
11	Grievance redressal mechanism for faculty, staff and students	In the feedback all the grievances related to faculty staff and students are addressed. Along the guidelines set up by the AICTE, the institute also has an Anti Ragging Cell to prevent ragging; a Women's Harassment Redressal Cell to address any issues faced by women employees/ students and a Grievance Redressal Cell to handle any general issues that may be faced by the students, faculty and staff.
