# FROM THE CHAIRMAN'S DESK

*"The function of education is to teach one to think intensively and to think critically. Intelligence plus character - that is the goal of true education."*

*- Martin Luther King Jr.*

Education stands at a pivotal juncture; a multitude of opportunities are adorning the landscape, yet we must tread the path with caution and certainty. On one hand, we have a long-proven legacy of Indian education that has produced some of the best scholars, scientists, innovators, and CXOs who are making a huge difference across the globe. On the other hand, we are resolute to make significant adjustments to the academic content and delivery that would further enhance the skill, mindset, and expertise levels of the Indian workforce.

We at Mumbai Educational Trust (MET) remain committed to fostering holistic education, nurturing talent, and adapting to meet industry demands. At our three state of the art campuses in Mumbai and Nashik, we house more than 20 institutes and schools. This is where we are developing and deploying learning frameworks that would enable and empower the young generation to impact the horizons.

Let's march forward, united in our pursuit of academic brilliance, corporate success, and societal impact.

# DIRECTOR'S SPEAK

Dear Corporate Fraternity,

Recruiting fresh talent with the right mix of 'company-candidate fit', appropriate attitudinal skills and functional knowledge has been one of the foremost challenges for any organization, more so in the recent turbulent times.

MET Institute of Management, with its 'state of the art' NBA accredited MBA (MMS) program, affiliated to University of Mumbai and approved by AICTE, has been offering a fresh talent pool for more than three decades to the corporate houses of the country.

We are pleased to present our latest batch of management students under various specializations who are ready and eager to be a part of your esteemed organizations. MET Institute of Management has been stepping up in sync with the shift to the new BANI world, a transition from the VUCA world.

BANI stands for Brittle, Anxious, Non-Linear and Incomprehensible. In this new world setting, aligning the expectations and delivery of various stakeholders is challenging and we, as established higher education institutions are facing this challenge head on.

During their two year stint with us, the management students are groomed and acculturated to hone their attitude, skill set, knowledge as well as adaptability in this fluid world.

The rigorous exposure to case studies, guest sessions, alumni interactions, simulation games, data visualization, research assignments, live projects apart from classroom teaching opens their minds to problem solving and decision making from various perspectives.

Our students have shown passion and compassion in starting their own community initiatives like "Adhyapan", to mentor school children in municipal schools and "Consulting COE" to help nonprofits solve their problems.

This brochure will help you ascertain the preliminary requirements for your organization and our energetic placement team will take you through the remaining process.

With a rising median salary year on year and a qualitative growth in job profiles and job descriptions every year, we look forward to your unstinted support in placing our students not for an entry job but for a scalable career.

With MET alumni adorning senior positions in most of the corporate houses and businesses, our value system and skill sets are tried and tested. However, we are inclined to not sit on our past laurels but to keep leaning in to stay relevant and respected each day.

We would love to build new relationships and participate in this ongoing "Corporate Satsang" in India Inc. Hope to see your presence in our campus and forge a meaning association ahead.

MET is one of those few institution that not only targets practical academics but also focuses on grooming students, preparing them from campus to corporate. These learnings helped me a lot at my corporate journey. The unique blend of faculties having core academic and industry experience further helped me to navigate my way in the industry.
